

The Freesia is an expansive and thoughtfully designed rear-load home that offers three to four bedrooms and up to 4,102 square feet based on your selections. Enter from the covered front porch and you're welcomed by a private office with elegant double doors. As you continue, the space opens into a beautifully connected living area where the great room, dining area, and kitchen flow together around a central island. For those who love to cook, consider upgrading to the gourmet island for added counter space, storage, and functionality. Just off the great room is your grand owner's suite leading into a spa-inspired bath with a wall-to-wall dual-sink vanity and a large walk-in shower, with the option to enhance further with a built-in shower bench. Finishing the first floor is a secondary guest suite, a full bathroom, a convenient laundry room, and a well-placed mudroom off the garage entrance.
