The Concord Floor Plan

\$1,242,911

Stunning doesn't even scratch the surface when talking about The Concord floorplan. This spacious home has various features that will have guests and families gasp as soon as they enter through your covered front porch. After coming in the door and just passing the spacious Zoom office, your eyes will see a wide-open floorplan that allows for the great room, the kitchen, and the dining room to all be viewed from any corner. Cook away on your large kitchen island, snuggle by the fireplace, nap on your covered back porch, or take an afternoon nap in the lavishly large owner's suite. With tray ceilings and a spa-like extended bathroom attached, you may not ever want to leave. That's not it for the first floor though. A guest suite and full bath are on the first floor and the laundry room is on the ground floor and is attached to the Owner's bath for easy cleaning.
